

Techniques with Paint and Ink with Deborah Boschert

Simple techniques and supplies, stupendous results! Cut freezer paper stencils, create foam stamps, print with found objects and make marks with pen and ink! We'll talk about shapes, pattern, repetition, and color. Students will leave with a beautiful stash of original fabrics ready to be used in art quilts, collage or mixed media.

Supply List

- three yards solid color cotton fabric
*Bring colors you love and include both darks and lights.
I suggest buying six half yards and tearing them into fat quarters.
Feel free to bring more, especially if you work quickly.*
- one yard white muslin, cut into fat quarters
- piece of felt or batting approximately 18x22 inches
- one permanent stamp pad
I suggest a black Staz-On, but any color is fine. A few students could share a stamp pad.
- fabric pen
I like black Micron by Pigma in the 08 size, feel free to bring other colors.
- four to six small bottles acrylic craft paint (or textile paint)
*Bring colors that coordinate with your fabric colors and include lights and darks.
Black and white are always good. I like Folk Art brand from Michaels.*
- three to six spouncers
As pictured here. (You'll love this tool!)
- two or three "found objects" for printing
*Consider small toys, kitchen utensils, empty spools, items from your recycling bin.
Anything with a texture or pattern that might be interesting.*
- four or five styrofoam meat trays or paper plates for paint palettes
- one sheet sticky-backed fun foam
- scissors — small and large
- sketchbook, pen and pencil
- dishes for water
- creative spirit!

Optional

- exacto knife and small cutting mat
- brayer
- apron

For the whole class

- plastic to cover workshop tables
- freezer paper
- ironing station
